Project Cargo Logistic

Centauro Argentina is a company leader in Integrated Logistics Services specialized in import and export cargoes with 40 years' experience.

Centauro has offices strategically located in Buenos Aires and Mendoza with a staff of over 60 trained professionals including a dedicated staff that understands the solutions practical, operational and engineering aspects of heavy transport, heavy lift cargo and manage the accurate and timely submission of client's official documentation.

All processes are certified under the ISO 9001 Standard.

The scope of services provided is Door to Door, from and to main ports and airports worldwide as members of important network alliances, offering in all cases innovative logistics solutions via Argentine Ports: Buenos Aires, Zárate, Rosario, Southern Argentine Ports and different Chilean Ports as well.

Detailed as follows some Heavy lift and Project shipments carried out in the last years as proof of Centauro's performance and experience as a leading Provider of Logistics and Transportation for Special Project.

Energy , Mining, Gas & Oil · Industrial Plants · Food & Beverage Equipments
Infraestructure and other sectors · Project Planning & Management

Aligned with the UN Sustainable Development Goals

Centauro S.A. is committed to the 2030 Agenda for Sustainable Development, recognizing the role of international trade and logistics in building a more sustainable, inclusive and transparent global economy.

We actively contribute to the following UN Sustainable Development Goals (SDGs):

- **SDG 1 – No Poverty**

Trade-driven growth through fair market practices that promote economic development and improved living standards.

- **SDG 3 – Good Health & Well-being**

Occupational health and safety management systems focused on prevention, risk control and employee well-being.

- **SDG 5 – Gender Equality**

Equal opportunities and gender diversity across leadership, strategic and operational roles.

- **SDG 9 – Industry, Innovation & Infrastructure**

Digital logistics platforms that ensure operational control, traceability and process efficiency.

- **SDG 13 – Climate Action**

Measurement and management of greenhouse gas emissions and carbon footprint across logistics services.

- **SDG 16 – Peace, Justice & Strong Institutions**

Strong compliance framework, transparency and anti-bribery policies embedded in corporate governance.

Sustainability is embedded in our operations, decisions and long-term growth strategy.
